## Objective

Motivated MCA student with a strong foundation in Computer Science and hands-on experience in full-stack web development. Eager to contribute to innovative development projects and grow as a software developer. Passionate about building scalable web applications, writing clean code, and continuously learning emerging technologies.

## Education

**MCA Master of Computer Applications**, D. Y. Patil University, Talsande

2024 – Present

**B.Sc. in Computer Science**, D. R. Mane College, Kagal (Shivaji University)

2021 – 2024

## Technical Skills

### Frontend

HTML, CSS, JavaScript, React.js, Next.js, TailwindCSS, DaisyUI

### Backend

Node.js, Express.js, MongoDB, MySQL

### Version Control

Git, GitHub

### Deployment

Render, Vercel

## Professional Experience

### Full-stack developer Intern(MERN)

- Worked on **multiple live client applications** across frontend and backend using the **MERN stack**.
- Built **scalable React UI components**, integrated APIs, and managed application state efficiently.
- Developed and optimized **backend services** including authentication, database schemas, and third-party integrations (payments, external APIs).
- Debugged complex UI and data-flow issues and delivered **production-ready features** in a fast-paced team environment.

Present

Kolhapur

## Projects

### Chatzy, MERN Stack Project

- Built a **real-time chat application** using the **MERN stack** with one-to-one messaging, live status, notifications, and secure authentication.
- Implemented Socket.IO for real-time communication, efficient state management, and a clean, responsive React UI.

### DevScreen, MERN Stack Project

- Built a **full-stack online interview platform** using the **MERN stack** with secure authentication and real-time chat.
- Developed scalable APIs, optimized data fetching, automated workflows, and delivered a clean UI for candidates and interviewers.

### E-Commerce Store, MERN Stack Project

- Built a **full-stack e-commerce application** using the **MERN stack** with JWT/cookie authentication and **Stripe payments**.
- Developed a high-performance React UI (Vite, Tailwind, Framer Motion), implemented scalable REST APIs, Cloudinary uploads, and admin analytics.

## Certifications

### MERN Full-stack development

Completed a professional certification in MERN Full-Stack Development, gaining hands-on experience in designing, developing, and deploying dynamic web applications using MongoDB, Express, React, and Node.js.

## Strengths

- Quick learner with a growth mindset
- Good communication and collaboration skills
- Passionate about building modern, user-friendly applications
