

YASH LAGARE

Full Stack Developer | React.js | Next.js | Node.js | TypeScript

yashlagare77@gmail.com | +91 7499768610 | Kagal, Maharashtra, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer experienced in building and deploying scalable, production-ready web applications using React.js, Next.js, Node.js, Express.js, TypeScript, MongoDB, and PostgreSQL. Skilled in designing REST APIs, building responsive UI interfaces, managing databases, and implementing secure authentication and authorization workflows. Has shipped full-stack products across diverse domains — from SaaS platforms to real-time and AI-powered applications — with a focus on clean architecture and maintainable code.

TECHNICAL SKILLS

- Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Web Design, UI/UX Fundamentals
- Backend: Node.js, Express.js, REST APIs, Authentication, Authorization, API Integration
- Database: MongoDB, PostgreSQL, Prisma ORM
- Core Concepts: Component-Based Architecture, React Hooks, Context API, State Management (Redux Toolkit, Zustand), JWT Authentication, Real-Time Communication (Socket.io), Performance Optimization
- Tools & Platforms: Git, GitHub, Postman, Vercel, Render

PROFESSIONAL EXPERIENCE

Frontend Developer Intern | NeoSao Services Pvt. Ltd.

Jul 2025 – Jun 2026 | Kolhapur, India

- Developed and maintained responsive admin, vendor, and customer-facing web interfaces using React.js, TypeScript, Tailwind CSS, and REST APIs across e-commerce, food delivery, POS, and business management platforms.
- Built and enhanced 15+ production features and 20+ CRUD workflows including orders, inventory, categories, products, banners, onboarding flows, and operational settings.
- Collaborated with UI/UX designers on the BioZed landing page, translating design specifications into responsive, production-ready interfaces.
- Improved application performance and user experience by implementing TanStack Query for server-state management, API caching, pagination, and optimized data synchronization.
- Developed reusable UI components and integrated third-party services including Google Maps, payment workflows, real-time notifications, and authentication systems.
- Collaborated in Git-based development workflows with testing, debugging, and code reviews, ensuring responsive optimization across desktop and mobile applications.

PROJECTS

QuickBite — Multi-Role Food Ordering & Delivery Platform | React.js, Node.js, Express.js, MongoDB, Socket.io, Redux Toolkit

- Built a production-style multi-role platform (User, Shop Owner, Delivery Partner) with JWT authentication in HTTP-only cookies and role-based route protection.
- Implemented real-time order lifecycle tracking (Pending → Preparing → Out for Delivery → Delivered) using Socket.io, and geo-based shop discovery with MongoDB 2dsphere indexing.
- Integrated Razorpay payments with backend signature verification and built a modular MVC backend with Redux Toolkit state persistence on the frontend.

GitHub: github.com/YashLagare/QuickBite | Live: quickbite-9jda.onrender.com

PixelForge — AI Image Restyling Platform | Next.js, TypeScript, OpenAI, PostgreSQL, Clerk, Drizzle ORM

- Built an AI-powered image transformation platform using OpenAI's image models with dynamic prompt generation for consistent artistic outputs.
- Implemented secure authentication via Clerk, optimized image upload/delivery with ImageKit, and generation history tracking with PostgreSQL and Drizzle ORM.
- Built a quota-based usage system with tiered plans and a responsive studio interface using Tailwind CSS and Radix UI.

GitHub: github.com/YashLagare/pixelForge | Live: pixel-forge-zeta.vercel.app

InvoicePilot — Invoice Management Platform | Next.js, TypeScript, PostgreSQL, Prisma, NextAuth

- Built a full-stack invoice management platform handling end-to-end invoice lifecycle (create, edit, mark-as-paid, delete).
- Engineered magic-link authentication via NextAuth, eliminating password-based login friction.
- Automated server-side PDF invoice generation with jsPDF and transactional email delivery via Nodemailer.

EDUCATION

D. Y. Patil University, Talsande — Master of Computer Applications (MCA) 2024 – Present | CGPA: 8.2

D. R. Mane College, Kagal (Shivaji University) — B.Sc. Computer Science 2021 – 2024 | CGPA: 7.9

CERTIFICATIONS

- JavaScript & React JS Mastery | MERN Full-Stack Development — 30 Days Coding Program
